## MISS GREEN AND MR. GLASS WIN

WILL REPRESENT MARYVILLE HIGH SCHOOL MAY 5.

## SWINEHART, HOLLIDAY, MISS HOPE, JUDGES

Attention Now Turns to Big Play Next Thursday—No Ball Game Today, Rain.

Miss Erma Greene, reading "Her First Appearance," won the gold medal for the best declaimer in the Maryville high school, and the boys' honor and gold medal was awarded to Claude Glass, who gave the oration "Regulus to the Carthaginians."

The silver medals with second honors were presented to Miss Jennie O'Neal, reading "The Death Disk," and Berney Harris, Jr., with Beveridge's "The March of the Flag." The other contestants were Virginia Lawson, Helen Rose Crawford and Etha Henderson, Clifford Hull, Lee Meek and Lloyd Hartley.

Music at the beginning and close of the program was given by the high school orchestra. Between the halves of the program the girls' glee club sang "Questions" and "The Quilting Party." A good crowd, considering the cold, rainy night, heard the program.

The winners, Miss Green and Mr. Glass, will contest in the inter-high school meet at the Normal auditorium May 5.

The judges for both contests were Miss Fannie Hope, the Rev. R. C. Holliday and Prof. H. P. Swinehart.

The Grant City-Maryville base ball game, scheduled for this afternoon, will be played Tuesday or Wednesday of next week. The grounds were too muddy to be used today.

Working Hard on Play.

The cast for the high school play, "All of a Sudden, Peggy," are working hard on the three-act comedy. The play is a large 150-page book and will take more than two hours to give. It is much more pretentious than has ever been attempted before. It will be given at the Empire theater next Thursday night.

The scene is laid in England, the first and third acts being at Lord Crackenthorpe's country estate, and the second at Jimmy Keppel's flat in London. The high school orchestra will play during the performances, and there will be a specialty act between each of the acts of the play. These will not be made known until that night.

The story of the play is that Lord Crackenthorpe loves Mrs. O'Mara and her daughter, Peggy, and doesn't know which one he wants. Peggy doesn't want the Lord, so she gets Jimmy Keppel to pretend that he and she are married. Lord Crackenthorpe, on hearing the news, marries the mother.

This wedding causes all society to believe that Peggy and Jimmy really have been married. It takes the last two acts for the affair to get straightened out and for Peggy to decide "all of a sudden" to get married sure enough.

The cast follows:

Anthony, Lord Crackenthorpe, fellow of the Entomological society—William Van Cleave.

The Hon. Jimmy Keppel, his brother—Clarence Cook.

Major Archie Phipps, Lady Crackenthorpe's brother—Claude Glass.

Jack Menzies—Goff Crawford.

Parker, footman at Hawkhurst, and Lucas, manservant at Jimmy's flat—Kenneth Van Cleave.

Lady Crackenthorpe, Lord Crackenthorpe's mother—Fay Herndon.

The Hon. Millicent Keppel—Mary Woodbridge.

The Hon. Mrs. Colquhoun—Kathleen Wells.

Mrs. O'Mara, widow of Professor O'Mara, F. R. S.—Gladys Alexander.

Peggy, her daughter—Mary Condon.

Kansas City Guests Here.

Mr. and Mrs. Joseph Brown and children, Freda Josephine and Joe, arrived last evening from Kansas City, and will be the guests of Mrs. Brown's parents, Mr. and Mrs. Fred Hastings.

## "TERRIBLE MEET" TONIGHT

Interpretative Reading of Play Will Be Given at First Presbyterian Church by Pastor.

"The Terrible Meet" will be read at the service of the First Presbyterian church tonight by the Rev. William Moll Case.

"The Terrible Meet" is a one-act play, for three voices to be played in darkness. It is a good Friday play. The characters in it are a peasant woman, an army captain and a soldier. The time is a time of darkness and the place, the wind swept hills.

This play was published in 1912 and was played in the Little theater in New York City. Since then it has been given in a number of churches.

This service gives promise of being one of the most interesting in the series. At the conclusion of the service Mrs. Case will sing "There is a Green Hill Far Away," by Gounod.

## 58 YEARS MARRIED

MR. AND MRS. H. J. PITTSBARGER TO CELEBRATE.

## LIVE AT BOLCKOW NOW

Couple 83 and 78 Have Lived in Nodaway County Many Years—He is Former Soldier.

Saturday, April 22, will mark the fifty-eighth wedding anniversary of Mr. and Mrs. H. J. Pittsberger of Bolckow, former Nodaway county residents.

Mr. and Mrs. Pittsberger lived at Barnard until last fall, when they moved to Bolckow. They enjoy excellent health for their ages, 83 and 78, and this morning when the reporter called for Mr. Pittsberger, he was downtown. This is a pretty stiff breeze blowing for younger people to face today, but Mr. Pittsberger did not mind it, he said.

Mr. and Mrs. Pittsberger were both born in the state of Ohio. There Mr. Pittsberger enlisted in the Fortieth Infantry of Ohio, under General Jonathan Craner. He took part in the battle at Chickamauga, Atlanta, Ga., Nashville, Kingston, Rasaca, Tenn.

About 27 years ago they came to Missouri and have spent a large part of that time living in Nodaway county. They are the parents of three children, W. E. of Bolckow, H. W. of Nodaway county, and Mrs. Minerva Shoey of Illinois. They have eight grandchildren.

The day will be spent quietly at the home, unless friends should surprise them.

## PRESBYTERIAN S. S. EASTER

Program Will Take Place of Regular Exercises, With Unveiling of Picture, "Hope of World."

The regular Sunday school exercises at the Presbyterian church will not be held Sunday morning and an Easter program will be given in its place. After a Scripture reading by the superintendent, Dean G. H. Colbert, upon the fact of the resurrection and a congregational reading of the Scripture on the meaning of the resurrection, the following program will be given:

Easter greetings—The "Twins."

Song, "Merry Bells"—The beginners' department.

Recitation, "The Easter Story," Mark 16:1-7—Ned Colbert.

Song, "We Will Carol Joyfully"—Girls' chorus.

Scripture recitation, "The Witnesses"—Circle girls.

Song, "We've a Story to Tell to the Nations"—The girls' chorus.

Unveiling picture, "The Hope of the World," with recitation—Allen Demott.

Song, "The World Children of Jesus"—Jessie Demott, Katherine Gray, Girls' chorus joins in refrain.

The subject of the pastor, the Rev. W. M. Case, at the morning service will be "Immortality: Does It Make Any Difference?"

Mrs. Leslie Dean and daughter, Virginia Bell, will leave in the morning for Shenandoah, Ia., where they will be the guests of Mrs. Dean's daughter, Miss Dale Hoffman.

## PICKERING BANQUET

ALUMNI OF HIGH SCHOOL THERE TONIGHT.

## MOST OF CLASSES COME

1916 Seniors to Be Guests of Honor—Alva Bird President of Former Students.

The members of the alumni of the Pickering high school will entertain the out-going class with a banquet to-night at the Orme hotel. Miss Rachel Watson will be the toastmistress for the evening. Alva Burch is president of the alumni.

Only a few members of the alumni will not be able to hurry. The members of the various classes are: 1902-1903, Mrs. John McGuire, Misses Edith Green, Lou Coleman, Jennie Dickson, Edith Kime, Messrs. Fred Wolfers and Carl McArthur; 1906, Miss Ora McMillen; 1907, Mrs. Stewart Robinson and Georgia Williams, the latter living somewhere in the west.

Class of 1908, Walter Runnels and Miss Audrey McMillen; 1909, James Clayton, Floyd Robinson, Misses Ethel Swinford, Dovey McGuire and Golda Carmichael; 1910, Miss Anna Collins; 1911, Mrs. James Clayton, Howard Leach, Howard Null, William Bosch, Misses Mabel Null, Mrs. June Swaney and Mrs. Leslie Taylor; 1912, Mrs. Will Maxwell, Mrs. Howard Null, Misses Marie Burks, Rachel Watson, Huldah Lumte, Hazel Richard, Messrs. George Crowson, Lisle Hanna and Orlo Lincoln; 1913, Mrs. Byron Hanna, Mrs. Ernest Stafford, Misses Hazel Burks, Myrtle Null and Mrs. Glade Wiley of Akron, Colo.; 1914, Misses Nellie Morford, Ida Bosch, Eva Burks, Ethel Rice, Stella Wilson, Eugenia Hull, Nellie Clayton and Mr. Alva Burch.

The members of the class are: Christel Everhart, Maude Proctor, Vera McDowell, Gladys Null, Flossie Neal and Josie Wilson.

## STATE GETS HOPKINS MEN

Four Pleaded Not Guilty to Gaming—Special Session of Court Today For Sale.

J. W. Hall, Wilbur Thompson and Robert Garten of Hopkins and Worth Johnson of near Braddyville, Ia., were arrested yesterday by Sheriff Wallace and were arraigned in circuit court this morning to answer to the charge of gaming. They pleaded not guilty and their cases were continued until the next term of court. Bail was fixed at \$200 in each case, with Hall as surety for Thompson, Garten and Thompson, and Johnson as surety for Hall.

These men are charged with "rolling the bones" at the Charles Bebout corn crib, at the stock yards at Hopkins. There were two others in the game who have not been caught yet. Chief of Police Whitten of Hopkins raided the place last Friday, and Prosecuting Attorney Sawyers issued the informations against them.

An adjourned session of circuit court was held this morning with M. E. Ford as special judge. Court was held because there was an execution sale held this afternoon.

## 59TH WEDDING ANNIVERSARY

Mr. and Mrs. A. Booher, Sr., of Near Burlington Junction, on One Farm 45 Years.

Tuesday, April 18, was the 59th wedding anniversary of Mr. and Mrs. A. Booher, Sr., and the day was spent quietly by them at their country home, southeast of Burlington Junction. Mr. and Mrs. Booher were married in Indiana, but feel like native Missourians, having come to Nodaway county a half century ago. They improved their present place about 45 years ago, and with the exception of a short time in Burlington Junction, have made their home on the farm ever since.—Burlington Junction Post.

Mrs. C. Osman and daughter Mildred left last evening for St. Joseph, where they will be the guests of Mrs. W. C. Maupin.

## CLEARMONT WANTS LIGHT

SEEKS MARYVILLE SERVICE WITH BURLINGTON JUNCTION.

Proposition Made by Local Light Company May Be Voted on Soon.

Clearmont is wanting electric lights, and if the Maryville Electric Light and Power company secures the contract to furnish the lights for Burlington Junction it will make a proposition to furnish lights for Clearmont.

The Maryville Electric Light company offers to buy the Burlington Junction plant and sell a 24-hour service at a less rate than they are paying now. They would buy the plant, making payment for same in street lights, the service to extend over a period of eight or nine years. They propose to build a steel line, the same as the company constructed to Pickering, and to rebuild all of the lines in Burlington Junction so that first class service can be given at all times.

An election at which that proposition will be voted on will probably be held soon in that town. The Burlington Junction Post, in this week's issue, says:

"Everything considered, we feel that the Maryville company has made us a fair offer and we should not fail to take advantage of it at once."

## No Concert Last Night.

No band concert was attempted last night as the weather got worse toward night. It will probably be given next Thursday night, as the first outdoor concert of the year.

Miss Anna Balmum left last evening for St. Joseph, where she will be the guest of Mrs. J. H. Schmohl.

The Ladies of St. Patrick's church will hold a market at Orear's drug store all day Saturday.

## PREPAREDNESS AGAINST POACHERS.

## ESPIONAGE SERIOUS THE FEDS LINE-UP

RIGID INVESTIGATION OF FOREIGN SYSTEM.

## GETS ALL U. S. SECRETS CLARK-WAHLAND BATTER

Official Washington More Hopeful on German Situation Today—Other War News.

Special to The Democrat-Forum.

Washington, April 21.—A system of espionage, said to be as bad as that which surrounds a monarchy, is under rigid investigation. It is believed that it is maintained by several agencies, mostly representatives of foreign governments.

As a result of this system, secrets of extreme importance have found their way in the last few months into the possession of outsiders who have used them to embarrass the United States, especially in matters of international moment.

## Pessimism Melting Away.

Washington, April 21.—The final word of the German government on the American demand that the Teutonic submarine warfare be abandoned is being anxiously awaited.

The official circles are gradually losing their initial feeling of intense pessimism. Washington now believes that the influences friendly to the United States in the German empire will carry the day. The official draft of the American note is being carried to the kaiser for his perusal. He is at the front.

## Dutch Steamer Vannassan Sunk.

Ymuiden, Holland, April 21.—The Dutch steamer Lodewijk Vannassau was sunk in the North sea yesterday, presumably by a German submarine.

## No Answer for Ten Days.

Washington, April 21.—The German reply to the American note on the submarine controversy probably will not be received for at least ten days, and in the meantime the United States government will be able to take no further steps.

Count von Bernstorff, German ambassador, conferred with Secretary Lansing for twenty minutes today and is understood to have told him about certain recommendations he made to his government yesterday, which, if followed, would be acceptable to the United States.

## Great Rejoicing in France.

Paris, April 21.—It was officially announced the French troops are in a general offensive at Verdun and gained ground on both sides of the Meuse river. There is great rejoicing over France over the gains and the triumphs of the Russians.

Turkish Commander Assassinated. London, April 21.—A Constantinople dispatch states Abdul Pasha, commander of the Turkish army, was assassinated Wednesday by two soldiers, who escaped.

## CARRANZA RULE IS FALLING RAPIDLY

CAN'T WITHDRAW FROM MEXICO NOW, IS BELIEF.

## OBREGON AND TROOPS REAL RULERS THERE

Villistas Blow Up Government Train—Villa Death Confirmation Expected by De Factos.

Special to The Democrat-Forum.

Washington, April 21.—Cumulative evidence of the impending collapse of the Carranza government complicated the already tangled skein of American-Mexican relations.

The feeling which had been openly expressed in official circles that General Scott's trip to Texas was the forerunner of a withdrawal, began to give way today to a belief that the forces of the United States could not be withdrawn at this time.

Secretary of State Lansing has repeatedly said that the United States was ready to comply with Carranza's demands for withdrawal, but the view prevails today that America can hardly withdraw in the face of Carranza's helplessness.

## More Reports on Villa.

El Paso, April 21.—The Mexican consul at El Paso has received word that Villa is in the mountain district west of Durango City. An earlier report located him in the state of Zacatecas, but information to this effect was from an unreliable source.

The consul also states that a dispatch from the de facto government contained the information that The Bureau of Mexico City, in today's issue, has interviews with General Obregon, in which he states that he expects a confirmation of the death of Villa at any time.

## Carranza Power Tottering.

Carranza's power in Mexico is tottering down and the fall is regarded as only a matter of time. This news reached the border today from reliable sources. The military branch of the government is regaining ascendancy, and only General Gonzales, commander at Mexico City, remains loyal to the first chief. The anti are headed by Obregon and Aguilar, who are dictating every movement in Mexico.

## Mexican Train Blown Up.

El Paso, April 21.—More than two hundred Carranza soldiers under the command of the military governor, Trevino, of Coahuila, were killed and three hundred were wounded Sunday when the Villistas under General Reyes blew up a military train on the old Coahuila Pacific railway, according to advices from Jimenez today.

The train carried many refugees and many women and children were also killed. The cars caught fire from the explosion. Scores of wounded were burned to death. Military Governor Trevino narrowly escaped, feigning death when the Villistas killed many who survived the wreck.

## Carranzistas Being Massacred.

Washington, April 21.—The state department has received word from Colona and Dublan, Mormon colonies in Mexico, that Carranza troops are being massacred around Parral.

## Stolen American Newspaper Man.

Chihuahua City, April 21.—Mexican troops here fired upon an American aeroplane that flew over town Wednesday. The machine was too high and was unhurt. An American correspondent has been stoned by natives on three different occasions.

MANY people in this section think that Ivory is a laundry soap. So it is, but that is not all. It is equally fine for the toilet and for the same reasons that it is fine in the laundry.

Because it is pure, because it is mild, because it lathers freely and rinses easily, Ivory Soap is unequalled for all laundry work.

Are not these the qualities you desire in toilet soap? The fact is, you cannot get a better soap for the toilet than Ivory. Do not let its low price make you think otherwise.

### JOHN BARKER'S STATEMENT ELMO GRADUATION TUESDAY

Candidate for Governor Says Record as Attorney General Stands Before People.

Attorney General John T. Barker, a candidate for the Democratic nomination for governor, will speak at the court house in Maryville tomorrow afternoon at 1:30 o'clock. Mr. Barker is quoted as follows:

"In offering myself as a candidate for governor of this great commonwealth I desire to briefly present my views and the reasons why I should be nominated. Four years ago you elected me attorney general, and my record is before you. I have kept the faith and fought for your interest, and if you believe in me and the things I advocate, I ask your support.

No man has fought harder for the people of this state than I, and I want to thank the good people for the assistance they have given me. It has been their help and the knowledge that they have believed in me that has cheered me on. I desire to call attention to my three terms in the Missouri legislature and my record as speaker in the session of 1911. That session stayed with its appropriation and there was no deficit."

### PARNELL PROGRAM TONIGHT

#### WABASH CO-OPERATING.

Railroad Shows Cordial Desire to Stop Bootlegging.

The Wabash railroad is showing that the company does not desire to be a party to booze distribution. Notices have been sent to their agents in all dry counties to refuse to deliver any shipment of liquor to the consignee where the shipments are made from a point in Missouri. And the same notice says that if the shipment is from a point outside the state, the package shall not be delivered until the consignee gives a written certificate that the shipment is intended for the personal or family use of the consignee.—Gallatin North Missourian.

#### VICKERY AT CONCEPTION AGAIN.

Principal of Schools Re-Elected for Next Year.

Prof. C. C. Vickery has accepted the position of principal of the public school for another term, commencing the first Monday in September, with a nice increase in salary. Mr. Vickery, by his energy and untiring effort, has brought the school up to a standard that any town might well be proud of. He has made many friends while here, and the patrons of the school will no doubt be well pleased that his services have been secured for another year.—Conception Courier.

Class Address by President Ira Richardson and Sermon by Rev. A. F. Snowden at M. E. Church, South.

The Elmo school closes for the term on Tuesday of next week. The order of exercises will be about as follows: Sunday, baccalaureate sermon at 8 p. m., Rev. Alfred Snowden. Subject, "Life's Obligations." M. E. church, South.

Monday, grade entertainment, opera house, 8 p. m.

Tuesday, entertainment and dinner, school house.

#### NEXT MEET APRIL 29.

Pickering to Be Hosts to Schools of That District.

The next rural track and field meet will be held a week from tomorrow at Pickering for Hopkins, Union and Polk townships. It will be conducted by Eugene Bird and Albert Harris. The Burlington Junction meet for the townships on the northwest side of the county will not be held until May 20. It will be in charge of George Somerville and D. V. Culp. Bert Cooper, county superintendent, states that he was not in charge of the Barnard meet last week, but merely assisted the local committee there, Leonard Mendenhall and Opha Crawford.

#### PLANTING CORN NEAR SKIDMORE.

Elmer Owens Also Says Wheat Looks Good Around Him.

"Farm work has advanced to the point where farmers are planting corn in my vicinity," said Elmer Owens, of Skidmore, Mo., who was at the yards today with a car load of cattle and hogs. "Some corn was planted this week, and by the middle of next week, if the weather continues favorable, planting operations will be in full blast. Wheat looks good and oats and alfalfa are getting a good start. Grass is a little backward and not many pastures are ready to receive stock."—St. Joseph Stock Yards Journal.

#### Mrs. Cooke (Negro) Entertains.

Mrs. J. C. Cooke entertained with a kitchen shower yesterday afternoon in compliment to Miss Gloria Wilson, who will be a May bride. The guests were: Mesdames James Malcome, James Palmer, Lenora Page, Henrietta Smart, Mary Green, Alfred Allen, Dorsey Allen, Thomas Jackson, Will Palmer, Fred Fields, John Fields, Gertie Wells, Clyde Finlay, Clarence Baker, Misses Tresia Boyd, Pauline Palmer, Laura Williams, Hazel Vance and Lenora White.

Miss Clevia Dean, who has been visiting her father, Dr. L. E. Dean, has returned to her home in Burlington Junction.

#### Kelly the Dandy.

Eccentrics have flourished in every age, but possibly they were at their height in the days of George III. and the regency, when to be odd was considered fashionable. Take the case of Lieutenant Colonel Kelly of the (then) First Foot guards, who was a very vain, emaciated looking dandy, but at the same time a gentleman. "He was haughty in the extreme and very fond of dress. His boots were so well varnished that the polish now in use could not surpass Kelly's blacking in brilliancy. His pantaloons were made of the finest leather, and his coats were imitable. In short, his dress was considered perfect."

Kelly was burned to death while trying to save his favorite boots, and the story goes that the dandies competed among themselves to secure the services of his valet, who knew the secret of the blacking. Brummel was one of the competitors, but the man told him that the £150 a year he had been accustomed to receive was not enough for his talent and that he should require £200, upon which the Beau replied, "Well, if you will make it guineas I shall be happy to attend upon you."—Westminster Gazette.

#### Alaska's Natural Submarines.

The channels of the Alaskan waterways vary as you sail on to the northward. Now they widen into great lakes; now they are rivers as narrow as the Hudson or Rhine. At times you pass through gorges walled by islands and the mainland, and at times you are in floods like those formed by the half sunken Andes along western Patagonia, near the strait of Magellan. This part of our territory is made up of the heads of submerged mountains, and in places there are great rocks as steep, as high and as sharp as the Washington monument, which come within twenty or thirty feet of the surface. These are terrible pinnacle rocks that rip open the hulls of the steamers. They are searched for and marked with buoys by the wire drag of our coast and geodetic survey.—Christian Herald.

#### Canny Human Skill.

The ocean comes up and smashes our beaches and our piers; the wind blows down old houses and walls and trees; the rain fills up creek beds and basements and comes up over the floors of stores, with some damage to silks and sugar. It is all very big and scary and horrendous, but still the puny human climbs quietly into his dry street car, the antique commuter crawls aboard his chip sized ferryboat, the steamer swings and dances through the typhoon, and the cigar box office building laughs at the racket and the fuss. There is skill behind the car, the boat, the building; canny human skill that keeps cool and is not to be bluffed even by the winds and waters of the earth, and nature may lose its temper all it wants; it loses it quite fruitlessly.—San Francisco Bulletin.

#### Snubbing a Grand Duke.

When the Russian Grand Duke Sergius, who was blown to pieces with a dynamite bomb, was governor of Warsaw he thought it would be a good idea if the people of that city would contribute to a fund with which to buy sunflower seeds to be given to the Russian soldiers, who are very fond of chewing them. Sergius announced that every one sending money would be given a receipt, but those sending 1,000 rubles (\$510) or more would be thanked personally by himself. It is said that the response was excellent; but, though no one sent in 1,000 rubles and asked to be thanked personally by the grand duke, many sent in 999 rubles and asked for the receipt.—London Telegraph.

#### An Eye Test.

Most people believe that they see the same with both eyes. That this is not the case one can easily convince himself by the following simple experiment: Cover one of the eyes with a hand or bandage and let the experimenter attempt to snuff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching, under-reaching or putting the fingers too far to the right or left of the flame. With both eyes normal and open the accommodation for distance and direction is instantaneous.

#### Both Satisfied.

"The best thing that ever happened to me," sneered the young man to his former employer, "was when you fired me. I went out and got a regular job." "That's all right," replied the old boss. "I'm glad you're satisfied. Firing you didn't hurt our firm a particle."—Detroit Free Press.

#### Mercy Is Not Strained.

He (brutally)—Women have no sense of humor, anyhow. She (pointedly)—Oh, yes, they have! The reason they don't laugh at the funny things they see is because they don't want to hurt the poor things' feelings.—Richmond Times-Dispatch.

#### Might Work.

"Wife, why don't you hire a better cook?" "We can't offer enough salary to entice one away from our rich neighbors." "Well, can't you draft one from the minors?"—Exchange.

## TRIED VARIOUS KIDNEY REMEDIES BUT ONLY ONE PROVED RELIABLE

It is with great pleasure that I write these lines of praise for your wonderful kidney and bladder remedy. I had kidney trouble so bad I became very much alarmed. I had tried various kidney remedies I heard of, but without relief. I was about discouraged of ever being helped, when one day I picked up a book containing testimonials of people who had been helped and cured of their kidney trouble by the use of Dr. Kilmer's Swamp-Root, so I decided to try it, and I know I owe my present good health to the wonderful curative power of Swamp-Root. I sincerely hope my words will be the means of restoring many other sufferers of kidney and bladder troubles to good health.

Very truly yours,  
B. J. FENSTERMAKER,  
1491 Roycroft Ave., Lakewood, O.  
Personally appeared before me this 18th day of October, 1915, B. J. Fenstermaker, who subscribed the above statement and made oath that the same is true in substance and in fact.

Prove What Swamp-Root Will Do for You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Maryville Daily Democrat-Forum. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

## ORCHIDS ARE PARTLY EDIBLE

Always Get Some in Ice Cream and Cake Since Vanilla Comes From Flowers.

Ask the average man if he ever tasted the fruit of an orchid and the chances are perhaps a thousand to one that he will reply—no. But he has—at least if he is a normal man and eats ice cream and cake. From which statement it may be inferred that the fruit alluded to is not eaten like an apple, peach or pear, but is consumed in the form of a flavoring extract. Exactly; and it is an extract that is one of the most widely known and generally used in the world—vanilla. Which goes to show that most of us are not a very inquiring turn of mind after all—especially when it comes to things of almost daily use, and even in regard to things we eat.

Naturally, orchids are not usually thought of in connection with things edible. They are not expected to serve in a utilitarian capacity. They appeal not to the gastronomic but to the aesthetic side of the human individual, and are prized chiefly for their beauty and in some instances particularly because of their rarity. Anything that is beautiful and at the same time rare and hard to get is certain to be wanted—whether it is useful or not, a characteristic which is touched upon in an article in the March number of the Bulletin of the Pan American Union, Washington, D. C., by Edward Albee, in which he introduces his subject, "Orchids in the Americas."

### BIG ECONOMY CONGRESS

Representatives of Entente Meeting in Paris to Merge Financial Affairs During War—Their Plans.

Special to the Democrat-Forum.

Paris, April 21.—A landmark in the history of the world was reached yesterday when the representatives of all the Entente powers met to consider common economic measures to be in force throughout and after the present war.

Observers believe this congress is a great step forward towards the dreamed of "United States of the World," for never before have so many great nations met with such comprehensive objects in view.

The subjects to be dealt with have been handled hitherto, if at all, only in treaties to which two nations were a part. These subjects may be divided into those having directly to do with the pursuit of the present war and those having to do only indirectly or not at all with the conflict.

The first class includes a mutual tariff system favoring the Allies, precautionary measures to be taken against invasion of Allied countries by German products after passage from the state of war to the state of peace and reparation of war damages.

The second class, which is much the larger, includes an understanding concerning all legislation intended to regulate commercial relations among the belligerents, such as the execution of contracts, the recovery of credits, sequestration of goods, and the subject of patents, reduction of postal, telegraphic and telephone rates among the Allied countries, agreements relative to the international transport of goods creation of an international patent office, the commercial regime of the colonies of the Allied countries, internationalization of laws concerning stock companies, measures intended to reduce metallic circulation through an international chamber of compensa-

## ROAD WORK IN RURAL SECTIONS

Suggestions to Communities For Improved Highways.

### DRAINAGE AN ESSENTIAL.

The Right Man in a Community Should Be Placed in Charge of Road Work. An Earth Road Properly Cared For Satisfactory in Rural Sections That Cannot Afford Better Type.

[Prepared by office of public roads.]

That full value may be received for the money appropriated for road purposes and that the best results obtainable may be secured it is essential that the right man shall be placed in charge of road work. He should be selected not only because he actually knows more about good roads than any other person in the community, but also because he can get the best results from the money furnished. It is not sufficient, however, to let the matter rest with the appointment of a road overseer. He should receive the wholehearted support of the community in the work. It should be seen to that under the conditions and with the

DRAINAGE AN EARTH ROAD.

money furnished the community is getting what it has a right to expect in the way of road improvement. It is well to remember that if for any reason an incompetent man is placed in charge of the work the responsibility for failure rests upon the community. There should be no other consideration therefore in selecting a road overseer than that of securing a man with the ability to perform the duties required. It should be realized that good roads have much to do with the prosperity of a community and that united action in the right direction is the surest and quickest way to secure them.

Where the road overseer has had but little experience in road work or where some new and difficult problem is presented to the experienced man the office of public roads and rural engineering of the department of agriculture when requested will offer advice and suggestions for carrying on the work and how best to overcome the difficulties.

To secure a satisfactory road of any type it is absolutely necessary to remember: First, drainage; second, drainage, and third, drainage. The earth road, properly cared for, will answer satisfactorily for the traffic of many rural sections that cannot afford the better types of roads, but the earth road must be well drained. After this fact is well understood two other requirements may be taken up—the location of the road and the reduction of grades to a general average of 5 per cent.

With the exception of sandy roads, which are easiest for traveling when damp, all roads must have proper side ditches to carry away the surface water. In order to lead this surface water to the ditch the road surface must have a crown, or rounded roof, highest in the center and sloping toward the side ditches. A very easy and satisfactory way to keep earth, clay and gravel roads crowned by the use of the split log drag is explained in Farmers' Bulletin 597, copies of which may be obtained upon application to the department.

After the road has been crowned and the crown is kept in condition by the wise use of the road drag it should be seen to that ditches are kept free from weeds, etc., and that they are deep enough to carry off the water which runs into them. In most cases a wide, shallow ditch is best. Deep ditches are dangerous to traffic. At spaces of every few hundred feet along the roadway a culvert of some kind should be placed to carry away the water which has gathered in the ditches.

A road properly built generally will not have an average grade of more than 5 per cent. By "per cent of grade" is meant the number of feet the road rises or "climbs" for every 100 feet of its length. On a road of 1 per cent grade the horses need pull the load up a rise of only 1 foot for every 100 feet they travel. It has been found that where a horse can pull a full load on level ground he is able to pull only one-half that load on a 5 per cent grade and only one-fourth that load on a 10 per cent grade. More trips must be made to and from market on a road with just one bad hill in order to haul the same amount that can be hauled at one trip on a level road.

### OFF ON LONG AUTO TRIP

Mr. and Mrs. M. J. Johnston and son, Edward, of Burlington Junction Through the West.

Mr. and Mrs. M. J. Johnston and son, Edward, started Monday on a long trip in their car, and will probably not return to Burlington Junction until next fall. They are carrying plenty of equipment with them to make the trip comfortable and will devote the spring and summer to having the best time they can.

The Johnstons went first to St. Joseph, where they visited a few days, and from there will go to Kansas City for a short visit, and on to Morris, Okla., where they will spend some time with Mrs. Johnston's sister, Mrs. J. D. Young, and family. They are not sure of their plans after that but will drive west and intend to reach Grangeville, Idaho, in the summer and spend some time with their sons there. Mr. Johnston has promised to write the Post occasionally, keeping us informed of the trip.—Burlington Junction Post.

### REAL SAND IN THEIR GEARS

Nodaway Township Board Can't Get Men to Haul Material at the Price Paid.

The township board is having considerable difficulty in getting sand hauled to where the bridges are being constructed. The board has been paying 25 cents a ton, the same price as was paid in Lincoln and Polk townships, but at that figure there is some objection to hauling.

At a meeting of the board yesterday it was decided to move the cement outfits to bridges where the men would haul the sand willingly, unless an improvement was made at once. Over at Wilcox the men are anxious to have the new bridges put in, and one of the farmers there told a member of the township board they would donate the hauling if the board would go to work there. The board is not asking any donations, but intends to save the township all the money it can, and will quit operations entirely before it will pay more than other townships have paid for this work.—Burlington Junction Post.

### FROM COLORADO IN CAR.

Mr. and Mrs. T. A. Nicholas From Fort Collins.

Mr. and Mrs. T. A. Nicholas arrived here from Ft. Collins last Tuesday and will spend several weeks visiting relatives and friends. Mr. Nicholas will have charge of the carpenter work on the Ad Williams house, east of town. Mr. and Mrs. Nicholas made the trip from Colorado in their Studebaker car, leaving Ft. Collins at 10 o'clock Tuesday, April 4.

They found the roads fine, making 175 miles before dark. In fact, the roads were good until they reached Fremont, Neb., where for a distance they were very rough. They were held up two days by snow storms, but had no tire trouble or other misfortune to delay them.—Burlington Junction Post.

## St. Louis Mothers Agree With Those Of Kansas City And St. Jo.

Children's Colds, They Say, Should Be Treated Externally—Internal Medicines Are Harmful.

In our previous advertisements we have published letters from mothers in Kansas City, St. Jo., Joplin, Springfield and other Missouri cities. These ladies agree that internal medicines injure the delicate stomachs of the little folks, and they recommend the use of the external treatment—Vap-O-Rub. From a large number of letters from St. Louis women we will give just a few extracts.

Mrs. K. Petranich, 2900 Park Ave., writes: "Last winter when I had a bad cold I applied Vap-O-Rub over my chest and throat covering with a warm flannel cloth. I had almost instant relief, and believe it better than internal medicines for cold troubles."

Mrs. S. J. Wolf, 2341 Dodder St., says: "I used Vick's Vap-O-Rub on my baby who had bronchitis. I applied it over his chest, following directions, and the next morning he breathed easier."

Mrs. M. Hickman, 4020a Laclede Ave., says: "I have given Vick's Vap-O-Rub to my children for colds, sore throat, tonsillitis, and burns, and it certainly gave us great results."

Mrs. J. T. Shepard, 4221a No. 9th Street, writes: "My husband had a very sore throat, as he has had several times before, and always hitherto he has had to have it lanced; but this time he used Vap-O-Rub and was cured without any trouble."

Vick's comes in salve form and when applied over the throat and chest the body heat releases the ingredients in the form of vapors. All night long these vapors are inhaled with every breath through the air passages to the lungs, loosening the phlegm and taking out the tightness and soreness. You will find it quicker than internal medicines, and it can be used freely with perfect safety on the smallest child. Three sizes, 25c, 50c or \$1.00. At all drug stores.

### BIG MISSIONARY RALLY

Burlington Junction Methodists Will Hear Three Men From Foreign Fields.

A missionary meeting of unusual interest will be held at the Methodist church in Burlington Junction next Tuesday night and Wednesday. Plans are now being made for the meeting and the attendance promises to be large.

Burlington Junction is one of three towns that will have a group meeting, all three of the missionaries present. The missionaries are Dr. E. B. Caldwell, China; Dr. F. H. Richards, Africa; Dr. I. M. Tynan, India. These are men of great ability and their coming will afford the people of this community an unusual opportunity.

The meeting will begin at 8 o'clock Tuesday night and will continue until Wednesday night, the Wednesday session beginning at about 9 o'clock. Rev. Orlando L. Sample, the pastor, is now making arrangements for the meeting and a big attendance is hoped for.—Burlington Junction Post.

### Pickering M. E. Church.

Sunday will be of special interest. At this service the pastor will be pleased to meet all intending to unite with the church, and those parents who desire to have their children consecrated in baptism.

The theme for the morning service will be "The Resurrection." Do not forget to bring your self-denial offering with you.

Preaching at Myrtle Tree at 8 p. m., and reception of members. An Easter sermon at that hour.

## KINGS LESS EASY

MORE PRECAUTIONS NOW FOR SAFETY OF RULERS.

## MANY WOMEN DETECTIVES

Small Army Accompanies Kaiser, Czar, Emperor Joseph and King George.

Special to the Democrat-Forum.

Berlin, April 21.—The crowned heads of Europe even in times of peace are guarded in a manner that would be irksome to them, if they were not used to it from childhood. Since the present war began the measures taken for the safety of the emperors and kings and their families have of course been doubled.

The most closely guarded monarch, with the exception of the Czar, is King George of England. The British ruler always is surrounded by a large staff of detectives, even in his private apartments in Buckingham Palace. When the king dines out, or attends some festivity he is accompanied by a number of secret service agents, but these expert detectives do their work so tactfully that they are never noticed and in most cases are not even known to the king. Generally they wear the livery of servants of the royal household.

The secret police which guards the Czar consists of more than three hundred men and when the ruler travels this is increased to a small army. With the numerous detectives a special body guard of Cossacks and other picked troops always surrounds the Russian emperor. On his journeys through the empire the railroads are lined with soldiers, and his court train is preceded by another one appearing exactly the same.

The German emperor is guarded less carefully than the British and Russian rulers, but he also has several detectives following him whenever he shows himself in public.

He is unguarded only when he visits his troops in the field. There he feels himself absolutely safe and his sojourns at the headquarters of the Central Staff always means a vacation for the secret police officials attached to his suite.

The detectives watching over the safety of the rulers must possess not only a large amount of tact and fitness, but also special training. All of them have command of many languages and it is absolutely necessary that they be absolutely familiar with the plans and workings of the many secret revolutionary organizations which are forever hatching murderous plots against the different rulers.

Several of the detectives guarding the Czar are members of Nihilist and anarchist societies and their lives would not be worth a farthing if they ever should be found out by the revolutionists.

The chief of detectives at the British court speaks five languages and the officials holding the same positions at Berlin and Petrograd have command of seven each, but the best linguist is the head of the secret service at the court of the Sultan of Turkey. This sleuth, besides his native tongue, fluently speaks Arabian, Greek, Armenian, Bulgarian, Roumanian, Serbian, Italian, German, French, English, Russian, Persian and three other languages.

Many of the courts also have female detectives. Queen Victoria of Spain

on her travels is always accompanied by a very beautiful and stylish lady who is never mentioned in the court reports. The lady is said to be a wealthy American friend of the queen, but in fact she is an English detective attached to the palace secret service. The British and German courts have no female detectives, but Queen Helena of Italy, Queen Sophie of Greece, Queen Marie of Roumania, Queen Eleonore of Bulgaria and the Czarina are guarded like the queen of Spain by secret agents of their own sex.

## YES, BRANDEIS IS A JEW

So is British Chief Justice and Many Great Men in English and American History.

Yes, Brandeis is a Jew. So is the chief justice of England and he is the most powerful man in the British empire. The quality of patriotism displayed by the Jew, in the country that was once his own and under the free institutions of today, no man can question. The richest Jew on this continent at the time gave him all to keep Washington's army in the field. Through the Jew, England has been able to dominate the financial and commercial world. The finest, cleanest, kindest gentleman the Scrap Bag knows in the public life of the nation today, who loves the world and human liberty most, is Dr. Steiner of Grinnell college—a Jew.

The greatest personality of all time, he who made us free and gave to the human heart its fondest hope, was a Jew. Why tag men according to race or creed? It is the individual alone that is of moment, and in the infinite variety of these, from plain low, down to that nobility almost divine, each race strikes an average. It is Brandeis the man, not Brandeis the Jew, in whom the American people are interested.—Tom Bodine of Paris.

## DELEGATES FAVOR WILSON

450 Democrats to National Convention Named—Republicans for Roosevelt and Hughes.

Special to the Democrat-Forum.  
New York, April 21.—In returns received so far the Democrats have elected or designated about 450 of the delegates to the national convention which begins in St. Louis June 14. These are all friendly to President Wilson and his renomination is assured.

The Republicans have chosen 533 delegates, which leaves 452 to be selected. This does not include the results of the Rhode Island convention of April 17 or the Nebraska primary of April 18. The Republican sentiment is dispersed among a large number of candidates, with only Roosevelt and Hughes commanding any large following.

## NEBRASKA RETURNS SLOW

W. J. Bryan is Sixth in Seven, and Brother, C. W. Bryan, is 10,000 Votes Behind for Governor.

Special to the Democrat-Forum.  
Omaha, Neb., April 20.—Returns on Tuesday's preferential primary from more than a third of the voting precincts of the state leave three of the major counties in doubt. These are the nomination for governor on the Republican ticket, whether William Jennings Bryan has been defeated for delegate-at-large to the Democratic national convention, and the probable four victors in the contest for delegates-at-large to the Republican convention. The latest reports place Bryan sixth on the list of delegates, with seven candidates, four of whom will be elected.

Senator Gilbert M. Hitchcock has been re-nominated for United States senator on the Democratic ticket, and John L. Kennedy will be his Republican opponent, the returns indicate.

Keith Neville has a lead of nearly ten thousand in his contest with C. W. Bryan for Democratic nomination for governor.

The latest returns given Henry Ford a lead of one thousand over Albert B. Cummins for the Republican presidential nomination.

## LINCOLN TOWNSHIP WORK ON

Cement Crew in E. V. Humphrey's District Begins Under "Cheerful" Hildreth.

The cement crew for Lincoln township began work this week. The first work was done in E. V. Humphrey's district, the southeast. There will be enough work to keep the crew busy about all summer. "Cheerful" Hildreth is foreman, and the members of the crew are: Tom King, Duffy Leonard, Carl Bales and L. Snodderly. Jap Dougherty is teamster.

The board will have about \$4,000 to expend this year, and while it will not do all the work needed, it will help a lot. Lincoln township has so many small streams that it would take at least \$25,000 more to complete the work that ought to be done. But we have made a good beginning, and as the work is of a permanent nature, in the course of a few years, by doing a little every year we can complete the job.

We will begin to get returns from the state soon, perhaps some this year, and that with what we can raise each year will put our roads into the condition they ought to be.—Elmo Register.

## WANTED AUDIENCE AT ONCE

Japanese Ambassador Disregarded Diplomatic Custom Today and Wilson Granted Request.

Special to the Democrat-Forum.  
Washington, April 21.—Disregarding diplomatic custom, Baron Chinda, Japanese ambassador, today asked for an immediate conference with President Wilson. The request was granted.

China has asked President Wilson to change the phraseology of the Burnett immigration bill so that the apparent coupling of the Japanese and Hindoos be eliminated. The president is expected to do so.

## Egozelle and Gladstone

will make the season at my farm. 3 miles west of Maryville, at \$10 to insure a mare in foal. There is no better bred horse anywhere, than Egozelle and Gladstone; has a mark of 2:10 3-4. Parting with mares forfeits insurance. Will not be responsible for accidents.

J. L. SCOTT, Maryville, Mo.

## A "Young" Old Lady.

In "The Intimate Letters of Hester Piozzi and Penelope Pennington," edited by Oswald G. Knapp, appears an anecdote of a most unusual old lady. There was a Mrs. Shelley in Sussex, says Mrs. Piozzi—her sneering neighbors called her Epistle and Gospel—who had two maiden daughters. One broke her leg and died at about forty years of age, but the other departed not until five years ago. The doctors told her mamma there was no hope, and she piously resigned herself to the loss.

"But tell me at least," cried she, "what ails my poor child and of what can she possibly be dying?" "Of age, dear madam," answered her physician. "Miss Shelley was never strong, and seventy-six years have nearly worn her out."

"Oh, dear! Is she really? Why, I am ninety-four myself, and I am not dying of age!" She spoke truly and outlived her little girl, as she called her, six years.

## The Land of Lost Beauty.

Is there any land for lost and lovely things—sunsets and jeweled nights and emotions that have been perfectly beautiful and that just aren't alive any more? If there isn't, there ought to be—some heaven where they could go on living and forever fulfilling their loveliness. This is not a personal sorrow, and yet I ache with it. As I sit here in my old maid's corner I am as tranquil as if I had realized matrimony; I am busy and happy and just as much alive as most of my married friends. Of course they pity me; they feel as if life had passed me by, and, in a way, it has, but I am infinitely sorrier for them, for they have lost something that I never had, and most of them don't even know that they have lost it. That's the real tragedy of it. Doesn't anything ever last? Or were Francesca and Juliet eternally happy because they could die—and keep their dreams? I wonder!—Atlantic.

## A Malignant Bird.

Long ago the phenomenal power of the stomach of the ostrich was immortalized in the idiom of all the world's great languages. To have the "stomach of an ostrich" is the synonym for incomparable digestive power, the supreme flight of gastric laudation. Those omnivorous beings of the dime museum who devour hardware in public for so much per week are always down on the bills as "human ostriches." Well, to make a long story short, the whole thing from beginning to end is nature faking, pure and simple. As a matter of fact, the ostrich, if not a confirmed dyspeptic, has a most delicate digestion. The largest single entry in ostrich mortality records is acute indigestion. The successful feeding of ostriches in captivity requires constant care.—British Press.

## A Superstitious Musician.

Schumann was always inclined to superstition. When he visited Beethoven's grave at Vienna he found a rusty steel pen lying on it. This he carefully and reverently preserved and afterward used in writing his B flat symphony, believing that it would bring him inspiration. But this superstition, harmless enough in his early years, became accentuated later in an alarming manner. He began to take an unhealthy interest in table turning and spirit rapping. He was, moreover, intensely influenced by dreams and omens. One night he dreamed that the spirits of Mendelssohn and Schubert appeared to him and gave him a theme which he afterward wrote down and developed.

## "Whuppity Scoorie."

The ancient custom at Lanark, Scotland, of "whuppity scoorie," the origin and meaning of which are lost, is celebrated annually and watched by a crowd of grownups. The town bell is rung nightly at 6 o'clock from March to September and then lies dumb for six months. On the first night of the ringing all the young folk congregate at the cross, and after parading three times around the parish church the Lanark lads meet the New Lanark boys in a free fight, in which the only legitimate weapons are their caps tied at the end of pieces of string.

## Doubly Handicapped.

"Squiggles is a very conscientious and kind hearted man, is he not?" "Very, and it gives him a whole lot of trouble. You see, his conscience never will permit him to carry out his promises, because, it tells him, his kind heart has led him to take a wrong stand."—Richmond Times-Dispatch.

## Its Change.

"Modern civilization has made a great change in the commercial aspect of marriage." "How so?" "Fathers used to sell their daughters. Now they have to give them away."—Baltimore American.

## The Golden Fleece.

The noted order of the Golden Fleece is a military one instituted by Philip the Good, duke of Burgundy, in 1429, on the occasion of his marriage with the Portuguese princess, Isabella. The order now belongs to both Spain and Austria.

## Helps Some.

The law of compensation is still working. You don't have to buy your wife an expensive hat to wear in an expensive automobile.—Louisville Courier-Journal.

Never talk of other people's faults without necessity and avoid those who do.

## Washington's Wet Army.

We are now accustomed to seeing the demon rum kicked out of whole empires. Armies, by imperial edict, become dry as desert camels.

Washington's army, on the contrary, might drink all the liquor it could pay for, and even officers became intoxicated on duty and received but slight punishment. To David Lewis, one of our most painstaking students of history, I am indebted for the record of an interesting court martial due to a bottle of rum.

Lieutenant Bunburg was in command of the Statehouse guard—it is officially referred to as the Statehouse—one day in May, 1777. Not only was he intoxicated himself, but he carried liquor to his own troops and neglected his duty for hours.

His punishment was suspension of command and pay for one fortnight! Major Nicola was president of the court and James Sharswood judge advocate.

After Nicola had become a general he was chairman of that unique committee which offered a crown to Washington.—Philadelphia Ledger.

## Fighting Locusts.

Modern methods to defeat an ancient enemy were employed with extraordinary success in Costa Rica. The country was invaded by an army of locusts. Ordinary methods were employed to combat the pest without avail. Then a state of actual war was declared against the insects. Cannon loaded with sand were wheeled into advantageous positions and the invading army literally bombarded. Rockets, asphyxiating gases and gunpowder were also used, but the greatest success was obtained with the sand. At the time of the first invasion of the country by the locusts they were apparently in comparatively small numbers, so that they were speedily driven across the boundaries into Nicaragua. Active defense preparations were then made, and when the original invading army, heavily re-enforced, made its second appearance two months later the Costa Ricans were ready and literally blew the insects from the face of the earth.

## Wasted Effort.

A young married woman set out to convince the social circles of her newly adopted city that she was of aristocratic lineage and upbringing. She purchased an expensive book on the etiquette of the upper classes, took a course in auction under Mme. de Villiers and steeped her husband in the philosophy and the diction of pink teas and formal dinners. What she could she bought on the deferred payment plan, and what she could not she borrowed from the neighbors. When all was ready she cut the grocery allowance to the point of diminishing returns and hurried herself and her husband bodily into the best society. After two or three years of commendable effort she gravitated to the level of several other women who were doing the same thing and lived unhappily ever after. An ounce of pretension requires more than a pound of cure.—Judge.

## Pure Bred Percheron Stallion Dynamo, 88054

Will make the present season 3½ miles west of Maryville, Mo., on what is known as the Dickerson farm.

DYNAMO is a big smooth black gray, foaled April 12, 1911 and weighs 2100 pounds. He has wonderful style and finish for so large a horse, yet he is a fine mover. He has superb legs and feet, broad clean cannon bones with a most powerful muscular development. He was sired by PHENIX 42215 and is considered by good judges to be one of the best sons of that famous sire. DYNAMO was first shown at 2 years old, was first in his class at the State Fair and at the American Royal he won over a 2-yr-old that was sold for \$2200.00. He has since, been a consistent winner and just last fall at the State Fair he won the Percheron Society medal for the best American-bred Stallion. His colts are showing up exceedingly well, and parties having colts by Dynamo are justly proud of them.

TERMS—\$15.00 to insure living colt. See him and you will be fully convinced that no better horse ever stood on such terms.

Mares pastured at usual rates.
